Professional summary

Experienced Front End/UI Developer with a demonstrated track record of over 2+ years, adept at driving results through proficient design, development, and debugging skills. Specializes in crafting and implementing web applications within React and Node.js environments, showcasing expertise in UI development with HTML, CSS, JavaScript, and React. Skilled in Single Page Application development and possessing a solid understanding of Model-View-Controller (MVC) design patterns to ensure the creation of well-structured and maintainable code.

Experience

Front End Web Developer

December 2021 - Now

Bit Hub Technology / India, Pune

Greetings! I'm a dedicated Front-End Developer with 2+ years of practical experience. I've contributed to outstanding web Project the name is Southern Hospitality Management at Bit Hub Technology, collaborating on new features that align with our goals. Proficient in HTML, CSS, JavaScript, and React, I'm committed to clean code and seamless design integration. I prioritize customer-centered approaches, ensuring exceptional digital experiences.

Custom

Project

Project Title: Southern Hospitality Management

Role: Front End/UI Developer

Responsibilities:

- Conducted thorough requirement analysis and played an integral role in designing diverse Business Layer and Data Management components within a multi-tiered web-based system, utilizing React for the frontend and Node.js with MongoDB for the backend.

- Collaborated closely with the Design team to create responsive web pages using Bootstrap and use React for Single page application.

- Facilitated effective communication within the team to gather insights and input for new requirements.

- Implemented code changes for new features, executing design and development in Node.js and MongoDB, while maintaining version control with Git and regular GitHub pushes.

- Environment: React, Redux, Bootstrap, Sass, Photoshop, Visual Studio, Git, NodeJS, MongoDB.
